**Finally, there is a solution to moving large quantities of lumber, drywall, or most anything around the job site safely, easily, and effectively.**

Move and unload entire units of drywall at one time. The three axle setup cart is hinged to work on uneven surfaces. This 6,000 lb. rated Troll Material Handling Cart can be increased to 10,000 lb. with the addition of two axle assemblies. This is a great product for large commercial jobs. If using the Troll Material Handling Cart Model 2721 on surfaces other than poured concrete, check the floor rating in comparison to your load weight to make sure the floor is rated for the cart load.
