

## SPECIFICATIONS

Platform:	removable, aluminium dim. 700X700X h 1100
Platform levelling:	hydraulic with closed circuit
Boom:	2 sections telescopic, all steel
Boom angle:	0°/+75°
Pantograph:	double bar, all steel
Pantograph angle:	15°/+60°
Slewing turret:	305° (not continuous)
Controls:	hydraulic
Oil tank capacity:	25 l
Double pump:	10 l + 10 l
Circuit pressure:	160 bar
Maximum gradient:	28 %
Max. wind speed:	12 m/sec
Electric system voltage:	12 V
Max manual force:	40 daN
Control speed:	0.4m/sec
Load capacity:	120 Kg
No. operators:	1
Max. working height:	14.0 m
Max. working outreach:	6.8 m
Machine weight:	1600 kg
Traction:	tracked
Max. traslation speed:	1.5 km/h
Engine:	single - cylinder noiseless Honda
Outriggers:	collapsible, hydraulic descent
