turning radius**

Ideal for tough working environments found in construction applications, it is well suited for an extremely wide variety of indoor tasks.

**Renovation and extension • Painting, decorating & finishing •
Mechanical and electrical • Utility distribution • Manufacturing**

NOW AVAILABLE WITH SALOON DOORS

The GRC™-12 is a durable vertical lift equipped with a steel platform. It now features standard* saloon doors with extension deck, providing even easier access to operators carrying tools and materials.

Specification	Genie GRC-12
Working height	5.66 m (18 ft)
Lift capacity	227 kg (500 lb)
Height - stowed	1.70 m (67 in)
Length - stowed	1.37 m (4 ft 6 in)
Width	80 cm (2 ft 7.5 in)
Extension deck	44 cm (17.5 in)
Weight	950 kg (2,090 lb)

The saloon doors allow for walk-in access to and from the basket when operators are wearing a tool belt.

Specifically designed to help an operator easily get in and out of the basket, with tools and jobsite materials.
